Crawford Chapter, NFIP  
Re-Elects Peterson

At the annual meeting of the Crawford County Chapter of the National Foundation for Infantile Paralysis, present Chairman John H. Peterson was re-elected. Drive chairman for the March of Dimes which will be held next March will be named at a later date. It was thought that at least one more drive would be necessitated by the fact that 70,000 persons are still receiving treatment for cases stricken in prior years.

A financial report given by the Treasurer Ella Hanson Wilcox revealed that cash on hand following the 1954 drive is \$3,114.99. During 1954, the total receipts were \$3,947.88. Expenditures amounted to \$2,984.41. Of these disbursements \$1,874.41 was for patients care and \$1,000 was repaid to headquarters against advances to the Crawford Chapter.

On the Chapter's rolls as of the end of 1954 and receiving some aid were no cases stricken in 1954, 4 cases stricken in 1953, 1 case stricken in 1952, 2 cases stricken in 1951 and 1 case stricken in prior years or a total case load of 17. The Chapter paid for 74 hospital days during 1954 for cases stricken prior to 1954.

JACK PINE'S  
STUMP

Wall Jack Pine made up his mind and has selected a piece of artwork as a headline for The Stump. Folly Mikesell submitted the winning selection. All the entries were fine, and Jack also especially liked the good shape of the stump. He is now waiting to see what the artist will do with it.

A phone call came to the Avalanche office not too long ago with the complaint that Jack Pine would be a better writer if he wasn't sounding like a Chamber of Commerce. Perhaps I do sound like one, but what is wrong with that? Is some sort of sin to be interested in your town? Maybe the caller is one of those few odd ducks who doesn't want progress, who stand in the way of any change for the better, who laugh at those who will run on a mini-mum of care and food, subject him to every odd whim that might come to mind, never give him a rest unless they are through with him, and then expect him to repeat the same words over and over again. But Doc is not a man like that. He is a Human Being with a family, a stomach that has to be fed, a body that has to have rest, and emotions just like the rest of us. Think of the next time you call him at two in the morning or when Little Jimmy sneezes the first time. Sure, Doc'll come, give advice, medication or comfort. That's his duty. It is not an obligation. The duty is self-imposed, and a duty that few of the rest of us would willingly shoulder.

I have a Pet Peeve. It concerns these people who drown or otherwise dispose of cats and dogs. I know lots of kids who like pets and would like yours, if you don't want them. So, to any and all readers who have pets that they want to get rid of, I will gladly donate space in this column to helping you. If you have any pets, or anything of value that you feel others might need, just leave your phone number and a description of what you want to give away at the Avalanche Office.

I got a chain letter recently of such rare and different nature that I will quote it in full, with no changes. It is a letter from Sir. This chain letter was started in Reno, Nevada, in the hope of bringing relief and happiness to tired businessmen.

"Unlike most chain letters, this does not ask money. Simply send a copy of this letter to five of your friends who are equally tired. Then bundle up your wife and send her to the man whose name appears at the top of this list, adding your name to the bottom."

"When your name comes to the top of the list, you will receive 16,178 women—and some of them ought to be dandies. Have faith, do not break the chain. One man broke the chain and got his own wife back."

There was a P. S. "At the date of this writing a friend of mine has received 256 women. They buried him yesterday. Everyone said that he had a smile on his face for the first time in years."

And speaking of wives, Jack Pine is going to get himself in trouble one of these days. He is forever waving gaily at Geneva Douglas (whom he does not know) in the mistaken impression that he is waving at Nancy Hoffman (whom he does know). They are both very attractive women who have looked alike since they were kids in school.

Expect To Seed Football,  
Softball Fields This Week

"Hot Rods" To  
Run Sunday

At least 12 "hot rods" stock cars will be nosed for the starting flag at the Frederic Speedway next Sunday at 1 p. m. and again on Monday, July 4th, at 1 p. m.

That many entries from neighboring towns in the area have already lined up for racing on the two days, Speedway Manager Henry Doyon has announced. The only thing that might cause a cancellation now is the weather. Doyon stated, in announcing that there is in good shape.

Entries have been working hard on their cars, Doyon said and some real speed thrills should be in store for those attending the "hot rod" races.

8 Contributions  
Bring Fund  
Total To \$3,717

Installation of pipe for watering purposes and the dressing of the football and softball fields with top soil this week is expected to allow for seeding of the surface at the Graying Memorial Recreation Area yet this week, chairman Russell Carlson announces.

The chairman also said that a water pump has been equipped to pump water from the river to be used in wetting down the newly seeded fields. This part of this year's project was pushed through in a rush in order that the football playing area might be in shape for play this fall. With beginning of construction on the new million dollar Graying Mercy Hospital expected this summer, the present football field will of necessity have to be abandoned.

Work of the lighting of the area can be done at a later date as well as the construction of the quarter mile cinder track which will ring the football field, Carlson said.

As of Tuesday morning of this week, the fund total stood at \$3,717 for this year with totals of \$655 pledged for each of the next two years. The Graying Sportsman's Club voted a pledge of \$25 per year for three years. Other gifts this past week came from Mr. and Mrs. Lacey Stephan, \$25; Lacey Stephan Jr., \$5; Mr. and Mrs. Bruce Nielsen, \$10; Mr. and Mrs. Steve Hanna, \$10 and Charles E. Moore, \$50. Mrs. Isabel Cassidy, \$100; Roy Trudgen, \$100.

The house to house campaign has been set for July 11 to 16, it was announced last week by finance chairman, Dr. J. F. Cook. Dr. Cook announced two new workers named since last week. Mrs. Grant Thompson will cover US-27 north of the city limits and Don Smock will cover the area north and east of the Graying Fish Hatchery.

Contributions may be sent to Dr. Cook or the committee's secretary-treasurer, Mrs. Ella Wilcox or given to any member of the committee.

Orders for poles, light fixtures, wire, switches, and other equipment must be placed by late July in order that the material will arrive here in time for installation prior to the opening of the football season. Thus complete success by the end of the drive on July 16 is almost imperative, it was pointed out.

A shortage at that time might slow up the process of lighting to the point that the area would not be usable for night games this year. The committee was most earnest in its request that early contributions even prior to the start of the campaign would be most helpful and appreciated.

"This project is one in which every person in Graying will in some way benefit from and we feel that therefore each and every person should participate to the best of their ability, and as soon as possible," was the way it was expressed by the finance chairman.

Mr. and Mrs. Herbert Ritter and family of DeWitt spent the week end at the home of Mr. and Mrs. Carl A. Dorot.

Also in the car were Mrs. Etta Bailey, wife of the driver and James Love of Northville, husband of the injured woman. All three other occupants were shaken up but otherwise uninjured.

La Victoire, South  
Side Share  
League Lead

Camp Lehman, early leader in Crawford County Softball Association play, tumbled into third place as the South Side and Camp LaVictoire teams continued undefeated in their first four games. The season's opener, in which the two teams played each other, resulted in a tie.

Last week's action began as Camp LaVictoire picked up an easy 13-8 win over Frederic. Paul Evans was assisted by Doc and Lou Roberts, each with three hits as he racked up his second victory. John Mertes had three hits for the losers.

Camp Lehman absorbed their first defeat of the season as they were dumped by the South Side by a score of 3-1. South Side ace, Bob "Mussy" Hildner, went 4-0, Colnick, of St. Mary's, and Edmond Howse of Maple Forest with three hits each, starred at the plate.

Maple Forest dropped their fourth straight game of the season to Camp LaVictoire, belted out a routine 15-8 victory. Evans, in relief of Doc Roberts won his third consecutive game. Doc again was the big man with the stick, poling out three hits. Bob Pratt got a pair of hits for Maple Forest.

John Schofield and Bob Gildner combined their efforts in a two hitter which sent Frederic staggering to their fourth defeat. South Side ace, Fritz Colnick, of St. Mary's, and Edmond Howse of Maple Forest with three hits apiece, Jim Rouse, the Frederic starter, was charged with the loss.

In the final game Camp Lehman got back in the victory column as they downed St. Mary's on lefty Bill Arnold's two hitter by an 11-1 score. McDonnell had a home run and a single in three trips for Lehman. A double by Jack Goss was the best hit for the losers.

This week's feature games are expected to be Monday's meeting of the two camp teams and the South Side's Friday meeting with Camp LaVictoire. Both games will have an important bearing on the league race.

## Highway Commissioner Ziegler Is Target Of Democratic Attack

**Democrats Are Ganging Up on Highway Commissioner Charles M. Ziegler**

Gov. Williams and his Democratic state administration board are bearing down on the Republican who will administer Michigan's new \$35,000,000 a year road building fund in tax boosts.

So, days after the motorists started paying 1 1/2-cents a gallon more for gasoline, Williams and his official staff asked Ziegler why he hadn't built any new roads yet.

Ziegler said a quirk in the Federal-state financing plan and collection of the tax increase specified quarterly instead of monthly payments, causing a two-month delay.

Williams said he was "disappointed" at the lack of progress. He was joined in the sniping attack by other Democrats.

"I'm not God, or any of his relatives," snapped Ziegler.

The Governor stated he will brook no unnecessary delays in getting the roads built under a program which was one of the biggest political and legislative issues in years.

To get a head start, Ziegler has moved up a number of priority projects from 1956 to 1955.

He said other problems would be in the security of enough concrete for a massive roadbuilding program. Steel and manpower also are in short supply.

"We're in better shape than any other state," Ziegler said. "We will be able to start some of the major projects within two months."

Williams stated he has been "informally notified" that there is plenty of cement for the work.

The first big battle between the harassed Ziegler and the Democrats ended with Williams insisting the highway department work faster and Ziegler saying it was doing the best it could.

Forces on both sides were withdrawn, but Williams has called another meeting for June 24.

Controller James W. Miller signed an order forbidding sales of candy, magazines, knit goods, newspapers or magazines in state offices.

He said the order was "just a matter of good business" to prevent confusion in the offices and state employees from being solicited on the job.

For the first few days, the order stopped deliveries of newspapers, a tradition in the late afternoon. Pressed for an explanation, Miller said:

"The order says sales, not deliveries."

Three Republican groups, which have become separated along the line, all maneuvered for a spot in the shadow of Detroit's Mayor Cobo.

They wanted to sound him out on the possibility of becoming the party's 1956 candidate to run against Williams or his next-in-line for succession to the executive office.

The entire action was seen by party faithful as the beginning of another split.

First group to consider Cobo was in the legislature. His name has been mentioned both hopefully and seriously for the past four years.

Republicans led by Senators Haskell L. Nichols (R-Jackson) and Lynn O. Francis (R-Midland) flew the Cobo flag early.

After a caucus, it was decided to go ahead with a luncheon in Detroit, at which time Cobo would be asked to declare himself - or his chances.

A week before the luncheon, State Republican Chairman John Feikens called on Cobo, almost unannounced.

The meeting was considered the first party overture. Legislators felt a trifle slighted.

The third group, always behind the scenes, is a number of business and industrial executives who have backed Cobo for non-partisan offices in the past.

The executives figured they were overlooked in the rush to get the popular mayor for the candidacy.

Cobo is extremely quiet about all the hubbub.

In the past, he has waited for certain signs before moving. He has always come out on top in his election campaigns and insiders feel he will wait to see how his strength might carry over into a partisan battle.

But, the performance furnished strong evidence that Republicans are interested in winning back the governor's chair in 1956, whether the candidate is an old-line party faithful or not.

Democrats also are aware of the Cobo ascension and the thoughts of Republicans. Gov. Williams has already charged Cobo with missing the boat with a highway financing program.

The makers of Super-Refined No-Mox, the clean-burning gasoline,  
now bring you a new super-refined motor oil...

# New Gulfpride H.D. Select

Available in 3 grades—SAE 10W, SAE 20/20W, SAE 30. Lets you follow your car manufacturer's recommendation for each season.

...the only motor oil in the world  
super-refined by the Alchlor Process  
for modern high-compression engines.

Not a compromise, multi-viscosity oil that tries to be an "all-season," "three-grades-in-one" oil. Contains no artificial thickeners that break down in your engine and increase oil consumption.

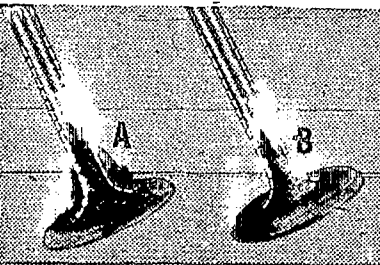

This completely new kind of motor oil—made possible by Gulf's exclusive Alchlor Process—is available in 3 grades to give you the finest protection, the best oil mileage for your make of car—in every season.

- Controls carbon—cause of knock, pre-ignition, valve failure and loss of power in high-compression engines.
- Combats corrosive acids, rust and deposits that build up on engine parts. Keeps hydraulic valve lifters quiet and free-acting.
- Assures lower oil consumption than the multi-viscosity "all-season" motor oils, because it has natural viscosity and contains no artificial thickeners that break down in your engine.
- Provides the toughest protective film ever developed in a motor oil... assures better engine protection for all cars under all driving conditions.

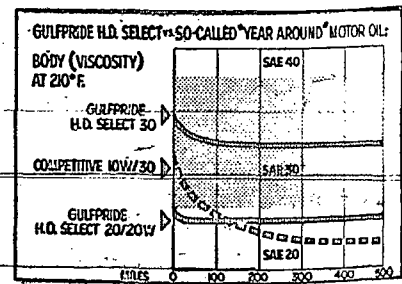

Now! For the ultimate in working octane performance and engine protection, always use Gulf's super-refined gas-oil team...

New Gulf No-Mox Gasoline  
New Gulfpride H.D. Select Motor Oil

"Coked" valve "A" is from engine using so-called "all-season," multi-grade oil. Coked-like carbon deposit is a cause of sluggish performance and ultimate valve failure. Clean valve "B" is from engine using new Gulfpride.

See how Gulfpride H.D. Select holds its "body" (viscosity). This new oil contains no artificial thickeners that break down under heat and pressure. But note how quickly a typical multi-viscosity 10W-30 oil starts to lose its body.

## Who Controls The Wealth?

"Ownership of industry is being rapidly democratized—diffused throughout the population," said Henry Ford in a speech before the American Newspaper Publishers Association. "More and more white- and blue-collar workers own more and more of the business firms for which they work, through profit-sharing plans, direct stock ownership or indirectly through a wide variety of pension and retirement funds."

Mr. Ford—who is strongly optimistic as to the soundness of our American economy and our future prospects—then went on to list some of the other great changes that have taken place in the capitalist system, including the emergence of the professional manager, the greatly expanded role of government as a moderator of force; and the development of private and governmental social security systems. Then he made the suggestion that "we look upon capital not as accumulated wealth or goods but as the productive power potential stored up in machinery. . . . By studying the distribution of horsepower among our people, we can perhaps learn something new about American capitalism and just who it is who controls the real wealth of our country."

At this point Mr. Ford presented some remarkable and little-known facts. Excluding that in military use, this country has at its command something like 6,250,000,000 horsepower, in machines ranging from the biggest electric generators to little home appliances. That works out to about 40 mechanical horses for every man, woman and child in the country.

That's certainly impressive—but the way the horsepower is owned is more impressive still. Industry and agriculture own about 1,500,000,000. State and municipal governments have a small amount—around 75,000,000. What Mr. Ford calls "home capitalism"—everything from your automobile to your electric razor—accounts for the largest amount by far—4,700,000,000 horsepower. To quote him again, "I submit that when you find people possessing many times more capital goods than industry; when you find that industry itself is being owned by ever greater numbers of the people; and when you see the opening to all Americans of new horizons of comfort and pleasure and experience which short years ago were available only to the well-to-do—

and the very well-to-do, at that—then you've just got to conclude that our system is, after all, being run for the benefit of the capitalists—all 100,000,000 of us!"

Mr. Ford also observed that antagonism to distribution businesses has crept into our thinking, and that retailers, salesmen and others are something accused of being economic parasites. He said, "We speak often of the 'high costs' of distribution. Seldom do we think in terms of value added by distribution. It should be perfectly obvious that the whole distribution process, including advertising, promotes more consumption, more production and more employment. In so doing it effectively lowers the cost and adds to the value of the goods. . . . In this connection, another little-known fact is worth noting. Getting goods to market is one of the biggest jobs in our whole economy. Strange as it may seem, the horsepower used for this purpose, in our railroads, merchant ships and trucks is more than 10 times that of all the machines producing consumers goods."

Interesting Items of News Gathered From the Files of the Avalanche of 23 Years Ago.

June 30, 1932

A canoe carnival down the AuSable River promises to be one of the finest things planned for northern Michigan during this summer season. The idea is taking like wildfire and already plans are under way to put it across. Who would think of such a feat? "Spike" McNeven and Frank T. To conceived the idea and on Tuesday they made a trip down the river to arrange for stopping places. The big affair will be staged on the first Sunday in August. Boat owners living on the river are enthusiastic about the matter and have offered the free use of their river boats and canoes and also agree to provide a guide for each boat who will explain to the occupants the features along the course and the names and owners of summer homes and lodges. As arrangements stand now, the stop for lunch will be at the first landing below the Stephen Bridge. The journey will end early in the evening at the Durham Lodge near the North Branch River. Grayling band is expected to be on the job too. Property owners all along the river have taken to the event and will cooperate in every way to help make the occasion one that will long be remembered. Flags will be displayed from lodges and large signs will give the names of the places or their owners and will assist in adding to the attractiveness, if that is possible, of an AuSable River trip. The present plan is that resident people will enter into the carnival and each couple invite some couple from outside of Grayling as their guests. The trip will be free of cost except that couples will have to furnish their own meals. And there will probably be a slight charge in order to provide the cost of advertising. This is not in any way a money-making affair. It is just an opportunity to know first hand the beauties of the old AuSable. Few people, comparatively, realize what a wonderful event such a trip is. A trip down the AuSable will never be forgotten.

Eighteen children received their first holy communion at St. Mary's Church last Sunday morning before a large congregation. The priest was a pretty one with the little girls in their white frocks and veils and the boys in the conventional dark suits. Following communion they recited a number of prayers in unison very nicely. Fr. J. L. Culligan was nicely assisted by Miss Eleanor Gorman in preparing the children for this sacred occasion. Following the mass a breakfast was given in honor of the children at the rectory, served by the ladies of the Altar Society. Yellow and green was the color scheme and the centerpiece of the long table was a basket of daisies. Favors of medals and holy cards were found at each plate together with a pretty butterfly. The affair was a very delightful one for the following boys and girls: Clayton Gorman, Junior McNamara, Junior Coblinski, Patrick Kolka, Lorraine Kolka, Lucille Kolka, Joan Montoury, Joan Grady, Kathleen Kraus, Phyllis Morris, Natalie Peterson, Audrey Gannon, Beverly Gannon, Laura Rasmussen, Francella Malloy, Catherine Charon, Lorraine Kochanowski, Betty Christenson. Elmer Neal and Lewis Engle left Sunday night for Chicago, to spend a week or so visiting Lewis' brother. Mr. and Mrs. Anthony Trudeau, Jr., and son, Junior, of Midland, spent Sunday here visiting relatives and friends.

Mrs. Lucie B. Underwood, teacher of voice, piano, Hawaiian guitar and banjo ukulele, gave a music recital at the Hayloft last evening. There were about 100 present and a very delightful and varied program was rendered by the following pupils: Stephen Jorgenson, Virginia Skingley, Evelyn Skingley, Arnold Babbitt, Celeste Neal, Clara Atkinson, Donald Corwin, Morleah Kochanowski, Elina Mae Sorenson and Alberta Knibbs. Following the program all present were served with delicious homemade ice cream during which Mrs. Underwood sang three very nice selections. An orchestra was gotten together and the crowd remained and enjoyed dancing until 11 o'clock. It was a very nice affair and Mrs. Underwood is to be congratulated on the success of her first recital in Grayling.

Misses Lois and Evelyn Sorenson, Elina Mae Sorenson, Martha Sorenson, Norma Pray and Dagmar Juhl enjoyed a house party at the Olaf Sorenson cottage on Lake Margrethe last week. Rev. and Mrs. Hans Juhl and Miss Dagmar were in Marquette over Sunday, the Reverend occupying the pulpit in the Danish church there.

Mrs. W. J. Heric entertained a number of boys and girls Monday to celebrate the fourth birthday of her little daughter, Patsy Hope. The little Miss made a charming hostess and her little friends made her very happy on

her birthday.

Mrs. B. J. Callahan and sons, Ted and Bill drove to Flint, Merrill, Saginaw and Bay City to call on relatives and friends. They returned home Sunday night.

Mrs. Wilbur Broadbent was hostess to "Our Gang" Thursday afternoon at the home of her son, Earl Broadbent. There were 19 members and 6 guests, Mrs. Arthur Parker, Miss Dorothy Broadbent, Mrs. Carlton Wythe, Miss Josephine Robarge, Mrs. John Wakeley, Mrs. Earl Broadbent. The afternoon was spent sewing and a very interesting contest sponsored by the hostess, was won by Mrs. Seelye Wakeley. The Penny prize was won by Mrs. Earl Broadbent. One new member was enrolled at this meeting, Mrs. Carlton Wythe. The next meeting will be a lawn party at the home of Mrs. Seelye Wakeley. The occasion will be a birthday party for Mrs. Frank Cochrane whose birthday falls on that day and the birthday cake will be made by Mrs. John Stephan.

Earl Dawson and daughter, Vivian drove to Grand Blanc Sunday to accompany Mrs. Dawson and son Dick home, who had been visiting her sister, Mrs. James Olson and family a couple of days.

Peterson, and Dr. and Mrs. F. N. Bearach spent Saturday at Houghton Lake. The afternoon was spent golfing on the Michelson Golf course, and after dinner the party danced at Johnson's Rustic Dance Palace.

Excerpts from an article by Jack Van Covering in the Detroit Free Press state in part: "It is several weeks since the passing

From where I sit... by Joe Marsh

If You Can't Lick 'em—Join 'em

Just back from visiting with my daughter's family—and playing Grandpoo to two of the cutest kids you ever saw. While there I picked up a couple of new ideas on child raising:

If your child's learning to use a pen, provide an old fountain pen—filled with bluing. Looks and writes like ink, but won't stain clothes or furniture.

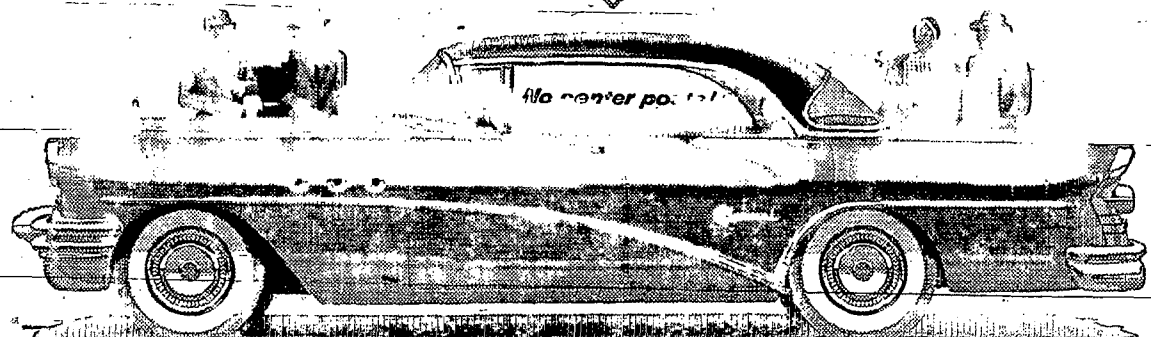

Maybe you have a boy, like my grandson, who thinks he's too old for a bib—but isn't. A big cowboy bandana works just as well, and looks he-man to boot.

From where I sit, getting along with children is like getting along with grownups—it requires an effort to see things from the other person's point of view. At any age, there's no accounting for tastes. Take my neighbor who keeps a parakeet and drinks hot coffee in the summertime. That seems strange to me... a man who's partial to hound dogs and a cooling glass of beer. But I'd be "childish" to say it was wrong.

Look 4 Doors and no center posts!

It's the new kind of hardtop—The 4-Door Riviera!

You drop the side windows down on this airy beauty of a Buick with the solid steel roof—and it's as wide open as a Convertible, with no center posts to mar your view. That's what makes it a hardtop.

But what makes it a very special kind of hardtop is the fact that it has four doors instead of two.

Cheers? Brother!—they're really rolling out for Buick's 4-Door Riviera!

Now, you see, you can have the tremendously popular styling of a true hardtop combined with the room, comfort and full convenience of a 4-door Sedan.

And it took a completely new kind of body design to come up with this marvel—a new kind of body built to wholly new structural principles.

So it looks like Buick's done it again—

because the 4-Door Riviera is a sweeping sensation across the nation.

It's rolling off the assembly lines in volume numbers to meet the demand—in the high-powered CENTURY Series, and in the bedrock-priced SPECIAL Series, illustrated here.

And each one is all Buick—with record-high V8 power, the level steadiness of all-coil springing, the extra roominess of a full-size Buick Sedan—and, most certainly, with the instantaneous getaway response and bettered gas mileage of Buick's spectacular new Variable Pitch Dynaflo.\*

Come in for a look at the brand-new kind of hardtop—the 4-Door Riviera. You'll find it priced at the modest extra cost of a 4-door model over a 2-door model—and a buy too thrilling to pass up.

\*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

## The Mouse Who Attacked the Cat

Turn about is always appealing. When something small wins out over something great—David over Goliath, the mouse that turned on the cat, the little man who beats the big man; in short, triumph over seemingly impossible circumstances.

So it is with insurance. The premium route the big bad ogre of financial loss.

The blow of a large liability verdict—a home demolished by wind or levelled by fire, valuable property stolen—all events of great importance to the individuals concerned—can be deflected from causing financial loss by that small, but all powerful insurance premium!

of Rube Babbitt. It is hard to believe that this summer the soft-spoken, trim-bearded Conservation Officer will not be seen on the AuSable, on the East Branch, near Grayling, or among the Big Pines. It is difficult to think he has lost his last year and that we cannot go to him any more for his wisdom on the out-of-doors which he was always willing to share.

This week we undertook a trip into Rube Babbitt's country. Whenever we mention the mention of his name would recall memories and often a story of a day spent with Rube in the woods or on his favorite AuSable. And while we listened, we understood why Rube seldom made an error and we learned that somehow he had been able to implant a love for wildlife which is more important than game laws and more effective than enforcement officers. When you visit the AuSable this summer you don't find Rube Babbitt. But as you hike into the forest or fish in the streams, you will find Rube and his mother, too, who maintain higher ideals of wildlife protection because they knew Rube Babbitt. When tempted to become a fish while fishing or hunting, they refrain, because "Rube Babbitt wouldn't do it." They can pay no finer tribute to Michigan's soft-spoken game warden than that. They are helping to establish a code of behavior which may some day be known as the Rube Babbitt tradition.

**Chevrolet's special hill-flatteners!**

162 HP V8

180 HP V8

See that fine fat mountain yonder? You can iron it out, flat as a flounder... and easy as whistling!

Just point one of Chevrolet's special hill-flatteners at it (either the 162-h.p. "Turbo-Fire V8" or the 180-h.p. "Super Turbo-Fire")... and pull the trigger! Barr-r-r-r-o-o-o-O-OOM! Mister, you got you a flat mountain!

At least it feels flat. For here are engines that sing as sweetly as a dynamo... built to pour out a torrent of pure, vibrationless power. Big-bore V8's with the shortest stroke in the industry.

So most of the time they loaf. Even at the speed limit they just dream along, purring out a traction of their strength. An engineer can understand why they are so hyper-efficient. But you don't have to be an engineer to know that these are the sweetest running V8's you ever piloted. Just come in and try one out!
